

MOMMY & BABY COMFORT

Enhance your breastfeeding experience by
investing in a few simple breastfeeding accessories.
Your back, breasts and baby will thank you.

Nursing Pillow

Correct positioning is key to successful breastfeeding. And a good nursing pillow not only allows your baby to get comfortable, but also helps prop up tired backs.

Nursing Cover

A chic and compact breastfeeding cover will help you breastfeed comfortably – and discreetly – anytime, anywhere.

Nursing Bras or Tops

Specially designed for nursing mothers, nursing bras and tops offer support, comfort and easy access to feed anytime, anywhere.

Nursing Stool

Nursing Stools can reduce lower back, shoulder, neck, and wrist pain by helping you maintain a supportive, comfortable position throughout the feeding.

Teething Bling Necklace

Teething Bling is a safe teething product that allows you to easily entertain and soothe your baby with emerging teeth.

Muslin Swaddles

These soft swaddle blankets are incredibly versatile. They can be used to swaddle your baby, be draped over a stroller to shade a napping baby, and even be used as a nursing cover in a pinch.
